

Friday 13 September 2013

The team at Cambridge IVF are known for blazing a trail in providing high-quality fertility treatment, but on the 22nd September, Raj Mathur, Jane MacDougall, Alka Prakash, Jennie Rollason, Carly Freestone and Christina Champion will be stepping out of their comfort zones to raise money for charity by running 1.7 miles each through the streets and colleges of our town.

Raising money for The Papworth trust who work with disabled and disadvantaged people, providing support in so many important ways.

Some of our team have never run before, so we need all the encouragement we can get! So please spare some money for our chosen charity and - if you can - come along to support all the runners at this fabulous event.
