

We hold regular information evenings here at Cambridge IVF.

- [Forthcoming dates.](#)

Information evenings at Cambridge IVF:

Please note that you must be aged between 18-44 to be treated at Cambridge IVF or to book onto an information evening. If you have booked make sure to check your junk mail for a confirmation email.

Our free information evenings provide you with a great opportunity to individually meet some of the key members of staff involved in the delivery of our services. You will have the opportunity to spend fifteen minutes each with a clinician, an [embryologist](#) and a member of our admin team.

This will give you an excellent overview of the treatment options available for you here at Cambridge IVF. We offer AMH testing on the night as well as half price consultations when booked and paid for during the evening (only available Cambridge IVF).

- For information evenings at Ipswich IVF [book here](#)

There is no charge for attending these evenings.

One-to-one nurse consultations

Can't attend our information evenings or prefer to speak to somebody on a one-to-one basis?

We now offer consultations with a fertility nurse providing you with information around treatment options, how the treatments work and an opportunity to ask questions and help you to identify your next steps. These 45 minute appointments are available for £85 and we can usually offer an appointment within five days.

Please call 01223 349010 to book.

Fertility health check

Here at Cambridge IVF we also offer a Fertility health check, a package which is designed to help investigate your fertility health before you think about having treatment. For more information please [click here](#).

Please do not hesitate to [contact us](#) with any questions.
