

Our aim is the same as yours; to help grow your family. We're always delighted to hear your stories and have set out a selection of the feedback we've received below.

[Kate's story](#)

Kate and her husband had successful treatment with us and now have a lovely little boy. Read their story [here](#).

Melanie's and Kelly's stories

Melanie had the first ever Cambridge IVF baby and returned with Kelly and her baby Harper to tell us their story. Watch the video [here](#).

Others' stories

“What started as a difficult and heart-breaking time has turned into an amazing and life changing journey. Within a year of having to face the fact that we may never have a baby that we desperately wanted, we now have a beautiful, healthy and happy little boy who is our world. We are so blessed and grateful and we count our lucky stars every day. He is now 3 months, really cheeky, happy and chilled (also something we are grateful for). We would also like to personally thank Susannah for all of the support she gave us. It was such a difficult process for us emotionally and physically and the guidance and understanding she gave us helped us to where we are now and for that we are eternally grateful. Thank you for everything.”

Happy new parents

—

“Our journey began at the clinic in September 2013. We cannot describe how thrilled and excited we are as expectant parents and how extremely appreciative we are of the work of all the staff we encountered at the clinic. We were always made to feel welcome and always felt valued and supported as patients; we were never made to feel any less important or ‘different’ despite being a same-sex couple and we never felt discriminated against in anyway.

All staff were respectful, sympathetic to, and understanding of, our situation. Throughout all consultations and throughout the whole treatment we found staff to be caring, professional, considerate, approachable and highly knowledgeable in their area of expertise. The nurses were fantastic and the reception staff were more than helpful and hospitable. We always felt we could ask any questions without feeling foolish and on several occasions we sought advice by phone; our queries were always dealt with promptly, thoughtfully and empathically. We cannot recommend the clinic highly enough to anyone seeking or needing help to conceive. Our overall experience was exceptional. Thank you all so much, we will always be grateful for the help we received."

Happy new parents

—

"Our experience was brilliant, we were cared for with respect and confidentiality was always shown. All staff were approachable and friendly. It was a very personal experience, we always felt informed and comfortable to ask questions. After having part of our previous IVF treatment at another clinic, I can honestly say our experience was much more comfortable and personal at Cambridge IVF and I would choose to use this clinic over the other from what I have experienced personally."

Another happy couple

—

"Staff were very helpful and couldn't be any more friendly they answered any worries or concerns I had I am now 21 weeks from my first ivf and I couldn't have done it without these guys can't thank you enough."

A satisfied patient

—

"Very friendly, knowledgeable, courteous and approachable. Made us feel comfortable."

Grateful for our expertise and patient focus

—

"The embryology team were extremely informative at every stage. They are obviously passionate about their work and we felt they showed and share a real interest in the treatment that we underwent."

Happy with our expertise
